When considering renovating or building new, the **Initial Consultation** with Jesse Wilson is the first step. Here is why...

- To obtain a registered Architectural Professional's opinion on the feasibility of the project. Jesse Wilson is the GTA's leading home renovation & new build expert.
- To produce an outline brief detailing rooms, sizes, orientation etc...
- To discuss potential solutions in outline form
- To discuss 'look and feel' of a potential scheme
- To discuss the planning viability of the project and your ideas
- To give outline construction costing for budget usage
- Outline the requirements for Building Regulations (xxx)
- All travel prices included in price for the GTA area (other areas beyond this area are priced at 'cost')
- Production of report including the above
- Report includes schedule of services & fee proposal on next stages of project
- Consultation cost credited to account on progression to next stage

A doctor wouldn't operate without a proper diagnosis; this initial consultation works in the same way. This initial consultation starts a strategy designed to precisely understand your requirements, then to give findings and recommendations and a plan to move forward with a timeline and budget.

Yes I would like to book an initial consultation with Jesse Wilson as described above.

**Enclosed is a cheque for \$392.00 made payable to S R Architecture for this initial consultation.
Receipt sent upon payment.**

Choosing an Architectural Professional isn't easy.

You need the right architect who has the specific skill for your custom home project and there is a right fit between you and your architectural professional

This may or not be me!

In our experience the best way of finding out whether we are the right 'fit' is to fully understand what you are looking for; and this is achieved through our initial consultation session.

If for some reason we then discover that we are not an ideal 'fit' then you are free to take the report to another designer for them to continue the process.
